*Proceedings of RSPSoc Annual Conference and Irish Earth Observation Symposium
University College Cork, Cork, Ireland ; 1st-3rd September 2010*

Monitoring the State of the Environment (Wednesday 1st September, 11.15am-12.45pm)

Boreland, Chris; Burton, Trevor	Where's the sense in all these sensors?	1
Critchley, Martin; Deflorio, Anna Maria; Schwartz, Sharron; Sims, Richard	A very dirty business: Earth Observation monitoring of illegal landfill sites	2
Dawson, Terence Peter	Quantifying and monitoring ecosystem services: The role of remote sensing in the development of SMART indicators.	3
Dwyer, Ned	Monitoring of the Essential Climate Variables in Ireland using Remote Sensing	10

EO Tools for the Built Environment (Wednesday 1st September, 11.15am-12.45pm)

Holderness, Tomas; Barr, Stuart; Dawson, Richard; Hall, Jim	An evaluation of thermal Earth observation for characterising urban temperature dynamics during extreme heat events	18
Kersten, Jens; Gähler, Monika	A framework for satellite image classification in the context of crisis mapping using Markov random fields	26
Tewkesbury, Andrew Phillip; Allitt, Martin	Urban creep mapping from Remote Sensing data	34
Walstra, Jan	The role of satellite imagery in a geoarchaeological context of the Upper Khabur basin (NE Syria)	35

Issues of Data Quality (Wednesday 1st September, 11.15am-12.45pm)

Llewellyn, Gary; Taylor, Ben; Land, Peter; Goy, Phil; Johnson, James; Davies, David; Joseph, Carl; Carolan, Emma; Warren, Mark; Grant, Mike; Groom, Steve; Purcell, Peter	The influence of solar position on the grassland red-edge and weathered asphalt	36
Mackin, Stephen; Stephens, John Paul	Comparison of the radiometry of Landsat 7 and the Disaster Monitoring Constellation (DMC) satellites over the Dome-C Calibration site in Antarctica	44
Mackin, Stephen; Stephens, John Paul; Crowley, Gary	Radiometric and data quality characteristics of the 2nd generation Disaster Monitoring Constellation (DMC) satellites.	45
Mewse, Chris	Development of cloud-based GIS applications to disseminate high-quality aerial photography and digital mapping	46

Mapping the Environment (Wednesday 1st September, 2.00pm-3.30pm)

Al-Ali, Mohamed Saif; Petley, David; Donoghue, Daniel	Assessment of high resolution SAR imagery products for flood detection	47
Kaptue Tchuenta, Armel Thibaut; de Jong, Steven M.; Roujean, Jean-Louis; Favier, Charly; Mering, Catherine	Ecosystem mapping at the African continent scale using a hybrid clustering approach based on 1km resolution multi-annual data from SPOT/VEGETATION	48

Ogunbadewa, Ebenezer Yemi	Mapping natural resources in the south-western Nigeria with Nigeriasat-1 data integrated into geographic information systems	54
Zhang, Li; Baas, Andreas C.W.	Mapping vegetation abundance in a coastal dune environment using a combination of linear spectral mixture modelling and maximum likelihood classification: a case study at Kenfig NNR	60
Modelling Marine Environments (Wednesday 1st September, 2.00pm-3.30pm)		
Kay, Susan; Hedley, John; Lavender, Samantha	Modelling the behaviour of light at the atmosphere-ocean boundary – an approach using high-resolution sea surface realizations	68
Peyton, Ciaran; Touhey, W. G.; O'Mongain, Eon; Collins, Andrew	The development of a Radiative Transfer Model for waters of varying depth	76
Spyrakos, Evangelos; Gonzalez, Luis; Torres, Jesus M.	Development and application of neural network-based chlorophyll a algorithms from MERIS full-resolution data for optically complex waters	84
Data Communications and Management (Wednesday 1st September, 2.00pm-3.30pm)		
Aplin, Paul; Jones, Sian; Donoghue, Danny; Tate, Nick; Ferrier, Graham; Boyd, Doreen; Pope, Allen	The NERC Earth Observation Technology Cluster	85
Edler, Dennis	'Native' sound maps, 3D-modelling and Remote Sensing in an interactive tutorial for teaching modern Irish as a foreign language	86
Kitmitto, Kamie; Millin-Chalabi, Gail Rebecca	Landmap: building a key academic spatial data infrastructure (SDI)	94
Tuohy, Michael Patrick; Irwin, Matthew Eric	OASIS – Online Archive of Satellite ImageS	95
Atmospheric Sensing (Wednesday 1st September, 4.00pm-5.30pm)		
Fisher, Daniel; Muller, Jan-Peter	Improved stereo retrieval of cloud-top heights and winds from ATSR2 and AATSR : Technique and results.	102
Hanafin, Jenny; Jennings, S. Gerard; O'Dowd, Colin; McGrath, Ray; Whelan, Eoin	GPS meteorology in Ireland	103
Lambkin, Keith Patrick	Stratospheric ozone monitoring in Ireland	104
Whelan, Gillian Mary; Cawkwell, Fiona; Mannstein, Hermann; Minnis, Patrick	Combining multiple sources of satellite imagery to provide a diurnally consistent contrail climatology for Ireland.	105
Sensing Beneath the Sea Surface (Wednesday 1st September, 4.00pm-5.30pm)		
del Villar, Diego; Bartlett, Darius; Cronin, Michelle	Using telemetry derived temperature data from tagged seals to examine fine scale changes in the water temperature	106
Dorschel, Boris; Andy, Wheeler; Monteys, Xavier; Verbruggen, Koen	An Atlas of the deep-water seabed: Ireland - A product of the Irish National Seabed Survey	114
Grierson, Hamish; Flemmings, Richard	Bathymetric laser depth penetration: maximum	115

	depths achieved with Hawkeye II	
Wilson, Jean; Rocha, Carlos	Regional scale mapping of Submarine Groundwater Discharge (SGD) sites in Ireland	123
Data Modelling (Wednesday 1st September, 4.00pm-5.30pm)		
Buecken, Arno; Rossmann, Juergen	On the computational complexity of a volumetric algorithm for single tree delineation	131
Daneshgar Asl, Samira; Mobasheri, Mohammad Reza; Rezaei, Yousef	Simulation of Landsat 7ETM+ band products by aggregating band-weighted EO-1 Hyperion data	139
Mac Arthur, Alasdair; Malthus, Tim	<i>Calluna vulgaris</i> spectral reflectance modelling and foliar <i>in vivo</i> pigment absorption spectra	146
Naz, Tabbasum; Lassoued, Yassine; Wallace, Richard	Ontology based automatic ETL for marine geoscientific data	153
Forestry (Thursday 2nd September, 11am-12.30pm)		
Donoghue, Daniel; Landy, Jack; Stenson, Graham	Multi-purpose use of airborne laser scanning data for forestry	161
Hill, Ross A.; Boyd, Doreen S.; Hopkinson, Chris	The influence of structure on spectral reflectance of four tropical rainforest types in Amazonia	162
Rossmann, Juergen; Buecken, Arno	A comparison of single tree delineation based on LIDAR and optical data	170
Stephens, John Paul	Tropical forest monitoring using the international DMCii satellite constellation	178
Soils (Thursday 2nd September, 11am-12.30pm)		
Barrett, Brian William; Dwyer, Edward; Whelan, Pádraig	SAR interferometry for soil moisture retrieval	179
Frampton, William James; Vuolo, Francesco; Dash, Jadu	Quantifying the effect of soil on retrieval of chlorophyll content from remotely sensed data	180
Stevens, Thomas; Smith, Mike J.; MacArthur, Alasdair	Loess spectroscopy: a comparative assessment of reflectance and destructive geochemical techniques as proxies for past climate change	188
Wheeler, James Edward Maxwell; Dwyer, Ned; Cawkwell, Fiona; Barrett, Brian	An analysis of the potential of C-band repeat-pass interferometric SAR imagery to detect and quantify motion and stability of peat bogs	189
Marine Applications of EO Data (Thursday 2nd September, 11am-12.30pm)		
O'Connor, Edel; Hayes, Jer; Lau, King Tong; Smeaton, Alan F.; O'Connor, Noel E.; Diamond, Dermot	Image processing for smart browsing of oceancolor data products and subsequent incorporation into a multi-modal sensing framework	190
Perkovic, Marko; Vespe, Michele; Posada, Monica; Muellenhoff, Oliver; Greidanus, Harm; Ferraro, Guido; Pavlakis, Petros; Harsch, Rick	Satellite monitoring and backtracking of oil pollution at sea; the West Cork case	198
Torres Palenzuela, Jesus M.; Gonzalez, Luis; Yarovenko, Nina; Martín, Julio	Oil spill monitoring system using SAR images and LIDAR data	206
Agriculture (Thursday 2nd September, 1.30-3.00pm)		
Ahmad, Norsuhaida	MIMO radar system as an improvement	207

	mechanism for agriculture applications	
Green, Stuart	The Irish Hedgerow Map: Automatic extraction of hedgerows from colour aerial photography	212
Hawkins, Owen; Holmes, Gary; Stephens, John Paul	Growth in precision agriculture through rapid temporal capability of the DMCii satellite constellation.	213
Kouadio, Louis Amani; Duveiller, Gregory; Djaby, Bakary; Defourny, Pierre; Tychon, Bernard	Wheat yield estimates at NUTS-3 level using MODIS data: an approach based on the decreasing curves of green area index temporal profiles	214
Peatlands (Thursday 2nd September, 1.30-3.00pm)		
Cawkwell, Fiona; Scarrott, Rory; Dwyer, Ned; Connolly, John	Mapping and monitoring Irish peatlands using satellite imagery	222
Lowe, Beth; McMorrow, Julia	Phenology of moorland plants; towards estimating temporal window for remote sensing of peatland restoration	223
McMorrow, Julia M.; Danson, F. Mark; Clay, Gareth D.	Hyperspectral remote sensing of moorland wildfire scars	231
O Connell, Jerome; Holden, Nick; Connolly, John	LAI in the quantification of vegetation disturbance in Irish peatlands	239
Visualising the world (Thursday 2nd September, 1.30-3.00pm)		
Donald, Alex; Cooper, Mark; Young, Mike; Napier, Bruce	Integrating geological and geographical datasets using Belfast's new immersive visualization facility.	240
Jordan, Colm	Making the most of digital Earth Observation data in the field	241
Lynn, William; Walsh, Paul; Fagan, Helen	Rapid city building For climate change visualisation using texture and modeling automation	242
Applications of LiDAR data (Thursday 2nd September, 3.30-5.00pm)		
Abed, Fanar M.; Mills, Jon P.; Miller, Pauline E.	Radiometric calibration of full-waveform LiDAR data based on local incidence angle in natural terrain	250
Cahalane, Conor Patrick; McCarthy, Tim; McElhinney, Conor	Mobile mapping system performance – an initial investigation into the effect of vehicle speed on laser scan lines	258
Ford, Andrew	Coupling InSAR, airborne LiDAR and DGPS to quantify mass-movement on the Jurassic Coast	266
Gaulton, Rachel; Danson, F. Mark; Pearson, Guy; Lewis, Phillip E.; Disney, Mathias	The Salford Advanced Laser Canopy Analyser (SALCA): A multispectral full waveform LiDAR for improved vegetation characterisation.	267
Monitoring changing landscapes (Thursday 2nd September, 3.30-5.00pm)		
Brown, Daniel Michael	Monitoring and evaluating recovery using high-resolution satellite imagery – towards standardised indicators for post-disaster recovery	274
Iremonger, Susan; Dunlop, Paul	Effect of sea level rise on habitats around Clew	275

	Bay	
Waqas, Ahmad; Butt, Mohsin J	Monitoring changes in Batura Glacier using multi temporal satellite data	283
Woodget, Amy; Smith, Emma; Fish, Paul	Use of state-of-the-remote sensing for coastal monitoring: A case study from west Cumbria	290
Commercial services and activities (Thursday 2nd September, 3.30-5.00pm)		
Cudlip, Wyn	Use of Sensor Web Enablement (SWE) standards in environmental monitoring	298
Farquhar, Clive	Intelligent geospatial analysis: Advances in ENVI	307
Gillespie, Adina; Hodgson, David; Stephens, John Paul	DMCii emergency response activities	308
Lavender, Samantha Jane; Fanton d'Andon, Odile Hembise; Emsley, Stephen; Bourg, Ludovic; Nightingale, Tim; Quast, Ralf; Vincent, Emmanuel; Bates, Martin; North, Peter; Fomferra, Norman; Brockmann, Carsten; Goryl, Philippe; Nasir-Habeeb, Rabiah	The challenge of determining uncertainties for optical remote sensing products; Sentinel-3 Optical Level 2 Prototype Processor.	309
Pradhan, Chetan; Hodgson, Dave	Overview of BARSC	317
Pradhan, Chetan	Logica's commercial activities in remote sensing	318
Stanley, Mark J	IFSAR Data for the island of Ireland	319
Close range and airborne sensing (Friday 3rd September 11.00am-12.40pm)		
Bennett, Rebecca; Welham, Kate; Hill, Ross A; Ford, Andrew	Analysing the vegetation information content of airborne remotely sensed data with respect to improving understanding of archaeological features	320
Donoghue, Daniel; Dunning, Stuart; Warburton, Jeff; Russell, Andy; Large, Andy	A quantitative assessment of erosion / deposition patterns in the 2009 Derwent flood event	328
Jarman, Mark William; Rowlands, Aled	Mapping invasive weed species using Remote Sensing data	329
Kirchhöfer, Melanie K.; Chandler, Jim H.; Wackrow, Rene	Testing and application of a low-cost photogrammetric recording system suitable for cultural heritage recording	330
Williams, Meredith; Russell, Andrew	An evaluation of reflectance correction approaches for VIS-SWIR airborne imagery in high latitude glaciated environments	338
Validation and verification (Friday 3rd September 11.00am-12.40pm)		
Cracknell, Arthur Philip	The MODIS NPP (Net Primary Productivity) Product – concept, definition and validation	339
Mackin, Stephen	QA4EO Compliant QA/QC system for automated quality control of large satellite Constellations	346
O' Connor, Brian; Dwyer, Ned; Cawkwell, Fiona	The use of METEOSAT cloud mask data as a verification of MGVI clear sky values	347

Posters (Wednesday 1st September, 5.30pm-7.00pm)

Ahn, Kiweon; Lee, Hyoseong	DEM generation of the intertidal zone using high-resolution optical images	355
Asgari, Masume; Mobasheri, Mohammad Reza; Ghamary asl, Mohsen	A model for estimation of agricultural soil fertilizer using simulated data	363
Bucher, Steffen	Potential of scatterometer derived soil moisture for early flood detection for large scale flood events in Africa	371
Canning, Simon Christopher	The use of OSNet for vehicle track computation and the effect on the accuracy of marine mobile laser scanning point clouds	372
Castillo-Lopez, Elena; Bayarri, Vicente	Advances in documentation of buildings using active photogrammetry	373
Castillo-Lopez, Elena; Pereda, Raul; de Luis, Julio Manuel	Quantification of water quality parameters in coastal zones using airborne remote sensing	379
Connolly, John; Holden, Nicholas	An object oriented approach for mapping peatland disturbance	388
D'Urso, Maria Grazia; Cavaliere, Francesco; Amura, Emanuele	Calibration test on low-cost inertial navigation systems	389
Gross-Colzy, Lydwine Sophie; Llido, Jerome; Fougne, Bertrand; Kavanagh, Declan	Ocean colour estimation using MERIS products in various conditions (open ocean and coastal waters): atmospheric correction through cirrus/thin clouds and sun glint contamination	397
Hobbs, Peter R. N.; Haslam, Ed; Jordan, Colm J.	Applications for UAV's at the British Geological Survey	398
Holland, Jennie; Aplin, Paul	Spatial and temporal issues in super-resolution mapping of bracken (<i>Pteridium aquilinum</i>) in the Lake District National Park, UK	399
Jarman, Mark; Keyworth, Steve; Medcalf, Katie	Assessing the extent and severity of erosion on the upland organic soils of Scotland using Earth Observation	400
Khan, Abdul Sattar; Donoghue, Daniel NM; Atkins, Peter J	Rapid urbanization, land use /land cover change and human impacts: a case study of Rawalpindi, Pakistan	401
Lavers, Christopher Ralph; Bishop, Christopher	Application of high-resolution IKONOS satellite imagery to Zimbabwe land clearances and internally displaced people population evaluation studies	402
Lavers, Christopher Ralph; Mazower, Jonathan	Application of high-resolution satellite imagery to environmental assessment of mining impact in West Papua (Irian Jaya)	410
Lavers, Christopher Ralph; Plowman, Amy; Hewitt, Sarah; Sayers, Ghislaine	Close range radiometrically calibrated thermal imagery analysis of wildlife	418
Martinez, M.Carmen; Torres, Jesus M.; Yarovenko, Nina; Rey, R. Yolanda	Oil pollution detection using the Spectral Fluorescent Signatures (SFS) technique	425
Millin-Chalabi, Gail; McMorrow, Julia;	Using SAR to detect moorland fire scars and assess	426

Agnew, Clive	vegetation recovery in the Peak District National Park	
Mulholland, Conor; Cawkwell, Fiona; Dwyer, Ned	To assess the use of medium resolution satellite imagery as a tool to monitor stocks of Mackerel <i>Scomber scombrus</i> in the North East Atlantic	434
Ogutu, Booker; Dash, Jadu; Dawson, Terry	Performance of two terrestrial ecosystem Production Efficiency Models (PEM) across a range of land cover types	435
O'Regan, Jonathan J.; Muller, Jan-Peter; Matthews, Sarah	Observations of Sun-Earth connections using solar and EO satellites	436
Parker, Robert Neville; Rosser, Nick; Densmore, Alexander; Petley, David; Oven, Katie	Spatial modelling of landslide hazard and risk at regional to global scales	437
Potts, Dale; Muller, Jan-Peter; Fox, Nigel	Development of experimental airborne sensor platforms for satellite calibration and validation	444
Rodríguez Cielos, Ricardo	LIDARGRAMMETRY. Process to create a stereo pair of images using the intensity data of the LIDAR	445
Scarrott, Rory; O' Connor, Brian; Dwyer, Ned; Cawkwell, Fiona	Characterisation of Irish landcover based on seasonality metrics, derived from a time series of satellite-derived vegetation index data	446
Spuck, Jacob	Short-term chronological visualization of post hurricane destruction in Puerto-Rico using GIS	447
Sumnall, Matthew James; Hill, R. A.; Hinsley, S.A.	The assessment of habitat condition and conservation status of lowland British woodland using earth observation techniques	448
Visser, Fleur; Wallis, Caroline	The use of texture in object-based classification of submerged macrophytes in chalk streams	457
Wan-Kadir, Wan-Hazli; Foody, Giles M.	Super-resolution mapping and accuracy assessment in coastal environments	458
Wilson, Andy; Smith, Mike	Assessment of DEM spatial resolution on the geomorphometric extraction of drumlins using object oriented classification techniques	459
Wilson, Robin Timothy; Milton, Edward James	Automated selection of ground calibration targets for atmospheric correction of fine spatial resolution satellite data	460
Yarovenko, Nina; Rey, R. Yolanda; Martin, M. Carmen; Castro, Miguel; Torres, Jesus M.	Sediments study in an intertidal zone based on aerial-photos and ground fluorescence methods	468
